Any approvals and observations incident thereto concern matters of an aesthetic nature. No approvals and guidelines may be construed as representing or guaranteeing that any improvements built in accordance therewith will be designed or built in a good and workmanlike manner. The granting of any exceptions or variances by Declarant shall be in Declarant's sole discretion. Declarant, the Association, their respective directors, officers, employees, and agents, the Architectural Control Committee, and members of the Architectural Control Committee are not responsible or liable in damages or otherwise to anyone submitting plans and specifications for approval or to any owner of land subject to the Declaration for any defects in any plans or specifications submitted, revised, or approved, any loss or damages to any person arising out of approval or disapproval or failure to approve or disapprove any plans or specifications, any loss or damage arising from the noncompliance of the plans or specifications with any governmental ordinance or

regulation, or any defects in construction undertaken pursuant to the plans and specifications. Approval of plans and specifications by the Architectural Control Committee may not be construed as approval by the City of Irving, Texas, as the approval processes are mutually exclusive. Unconditional approval of a complete set of plans and specifications by the Architectural Control Committee satisfies the requirements of all applicable subsections of this Supplementary Declaration that require written approval by the Architectural Control Committee for the plans and specifications. Any determination made by Declarant under this Supplementary Declaration, and the grant or denial of any exception or variance by Declarant under this Supplementary Declaration, is in Declarant's sole discretion.

- 4. The Declaration, except as expressly modified herein, remains in force and effect and is ratified and confirmed.
