- k. La Villita Design and Development Guidelines. Notwithstanding anything contained herein to the contrary, all improvements within Area CLXXXXIII must conform to the standards established under the "La Villita Design and Development Guidelines", as same may be modified from time to time by Declarant. The La Villita Design and Development Guidelines are held on file with The Las Colinas Association. In the event of any conflict between the rules, regulations, and requirements set out in sections a. through j. above and the rules, regulation, and requirements set out in the La Villita Design and Development Guidelines that are applicable to the same subject matter, the rules, regulations and requirements set out in the La Villita Design and Development

Guidelines shall be controlling. Declarant shall have the right, in its sole discretion, to grant exceptions to or variances from the rules, regulations, and requirements of the La Villita Design and Development Guidelines, provided that any such exceptions or variances must be in writing.

3. No approval of plans and specifications and no publication of requirements or guidelines herein or in the Declaration or otherwise by the Association or the Architectural Control Committee or granting of any exceptions or variances by Declarant may be construed as representing or implying that improvements built in accordance therewith will be free of defects or comply with applicable laws or ordinances. Any approvals and observations incident thereto concern matters of an aesthetic nature. No approvals and guidelines may be construed as representing or guaranteeing that any improvements built in accordance therewith will be designed or built in a good and workmanlike manner. The granting of any exceptions or variances by Declarant shall be in Declarant's sole discretion. Declarant, the Association, their respective directors, officers, employees, and agents, the Architectural Control Committee, and members of the Architectural Control Committee are not responsible or liable in damages or otherwise to anyone submitting plans and specifications for approval or to any owner of land subject to the Declaration for any defects in any plans or specifications submitted, revised, or approved, any loss or damages to any person arising out of approval or disapproval or failure to approve or disapprove any plans or specifications, any loss or damage arising from the noncompliance of the plans or specifications with any governmental ordinance or regulation, or any defects in construction undertaken pursuant to the plans and specifications. Approval of plans and specifications by the Architectural Control Committee may not be construed as approval by the City of Irving, as the approval processes are mutually exclusive. Unconditional approval of a complete set of plans and specifications by the Architectural Control Committee satisfies the requirements of all applicable subsections of this Supplementary Declaration that require written approval by the Architectural Control Committee for the plans and specifications. Any determination made by Declarant under this Supplementary Declaration, and the grant or denial of any exception or variance by Declarant under this Supplementary Declaration, is in Declarant's sole discretion.
4. The Declaration, except as expressly modified herein, remains in force and effect and is ratified and confirmed.
